5-9NM Solar Marine Lantern

SL-C510

The SL-C510 is a high intensity, completely self-contained 5–9NM solar LED marine lantern. Designed and manufactured to withstand the tough marine environment, providing years of reliable, low-maintenance service.

Intensity Range

High intensity capabilities of up to 1100 candela in white utilising leading technology LEDs for a visible range of 5-9NM.

Enhanced Optics

The optics and lens design ensures that vessel operators can clearly see the light from above when passing the AtoN.

Solar Efficiency

Designed with next generation solar technology including individual active MPPT (maximum power point tracking), maximising the power extracted from the solar panels for improved performance and efficiency.

OLED Screen with Touchpad

The conveniently located OLED (Organic Light-Emitting Diode) screen with touchpad allows maintenance personnel to check the diagnostics of the lantern with the touch of a button.

Bluetooth® Connectivity

Integrated Bluetooth® technology using the exclusive SealitePro® app allows for convenient in-field setup, configuration and maintenance from a location up to 50 metres away using your phone or tablet.

Satellite Communications

The SL-C510 is available with an optional integrated Iridium[®] Satellite module enabling two-way monitoring and control using the Iridium® Low Earth Orbit satellite network. Accessible via the Star2M[®] portal, the global Iridium[®] network offers genuine, pole-to-pole coverage and is the perfect communication partner for Sealite and our aids to navigation solutions.

Integrated, Internal AIS

Available as type 1 or type 3 and operating on the international VHF Marine Mobile Band for AtoN operational status and positioning information.

Available in three size configurations the SL-C510 provides an innovative and reliable solution for the 5-9NM range.

0 **Features**

- Enhanced optics
- GPS synchronisation .
- OLED screen with touchpad in lens
- Bluetooth[®] connectivity
- Satellite communications
- AIS Type 1 and Type 3
- Composite moulded polymer base and top
- Environmentally friendly bird spike

High Performance

- Premium-grade solar modules with individual active MPPT
- Heavy-duty aluminium chassis
- User-replaceable components including battery
- 200mm bolt pattern for immediate installation

\$ **Cost Effective**

- Low maintenance costs
- Energy efficient light solution

Optional

- IR programmable
- Satellite communications
- AIS

All Sealite products are manufactured to exacting standards under strict quality control procedures. Sealite's commitment to research and development, investing in modern equipment and advanced manufacturing procedures has made us an industry leader. By choosing Sealite you can rest assured you have chosen the very best.
