PERFORMANCE IN THE EXTREME

We've been in business since 1924, originally providing electrical supplies and support to the shipping industry. In the 1960s – when the great North Sea oil boom began – the EX industry was in its infancy, and few products had been specifically designed for use in hazardous environments. We responded to the new demand by developing safe, rugged, practical equipment for use on and offshore.

Our business grew with oil and gas, as we developed solutions in light, heat, ventilation and power distribution, achieving several 'world firsts' along the way. Over the years we've learned that what works for oil and gas also works in other potentially dangerous, cramped or inaccessible environments. SA Equip products are now used in shipping, aerospace, defence, utilities, pharmaceuticals, distilling, power stations and other heavy industry applications.

SAFETY & EFFICIENCY

SA Equip's 95+ years of experience and dedication to the industry empowers the company to design and manufacture safe and reliable ATEX & IECEx equipment which is used in multiple industries across the globe.

With our equipment, you can work in environments, conditions, temperatures and spaces where it would otherwise be impossible. You can achieve better results with less risk, and in fewer man-hours.

In partnership with regional distributors and certification bodies, our team is on hand to ensure you receive the highest quality of ATEX & IECEx equipment for your applications. We also provide bespoke project support, technical demonstrations and a wealth of industry experience.

Brought to you by

INNOVATION

At SA Equip, we believe in staying at the forefront of our industry. We continually invest in developing more sustainable processes and innovative technology to increase the safety and efficiency of our portable ATEX & IECEx solutions.

We are highly focused on adaptability, our new product development is centered around our customers and how we can design or modify our equipment to improve their operational performance.

CABLES

HOFR Braided Cable

A braided cable with wire braiding that is heat and oil resistant and flame retardant.

SPECIFICATION:

- Conductor: Tinned Annealed Flexible Copper
- Sheath: Elastomer compound type sw4
- Insulation: Ethylene Propylene Rubber (EPR)
- Voltage: 600/1000V
- Armouring: Wire Braid

HO7RN-F Cable

A heavy duty rubber cable that is oil resistant and flame retardant.

SPECIFICATION:

- Conductor: Plain Annealed Flexible Copper
- Sheath: Heavy Duty Polychloroprene (PCP) in black
- Insulation: Ethylene Propylene Rubber (EPR)
- Voltage: 450/750V

SY Braided Cable

A braided cable with steel wire braiding providing mechanical protection.

SPECIFICATION:

- Conductor: Plain Annealed Flexible Copper
- Sheath: Transparent PVC
- Insulation: PVC
- Voltage: 300/500V
- Armouring: Galvanised Steel Wire Braid

PUR Cable

A particularly durable cable under harsh conditions that is oil resistant and flame retardant.

SPECIFICATION:

- Conductor: Tinned Copper
- Sheath: Polyurethane (PUR) type TMPU in yellow
- Insulation: Ethylene Propylene Rubber (EPR)
- Voltage: 450/750V

"I have used SA for lighting and have always found it to be the best. When I discovered that the FLEXIHEAT Heater was made by SA, I knew it would be truly excellent. As expected, it did the job quickly and saved the company thousands of pounds. We now set you as a benchmark for how products should be."

Electrical Engineer, North Sea platform

SA FLEXIHEAT[®]

HEATER

SAPH18440

WHERE POWERFUL PERFORMANCE MATTERS

THE SA FLEXIHEAT EX HEATER withstands the harshest conditions offering robust, reliable and powerful performance. Fully certified for use in hazardous zones classified as 1 or 2, the heater comes as 'Plug & Play' enabling efficient implementation and use of the system. Hosting optimised heating element design and a solid state electronic control system, our 440V Heater allows you to meet temperature requirements effectively and maintain optimum working conditions in temperatures as low as -40°C.

CORE PRODUCT INFORMATION

SA FLEXIHEAT EX Heater 18kW/400V-440V (+/-10%)
3Ph 50/60 Hz c/w 4p 32A CEAG Plug and 20m of braided cable
Order Code: SAPH18440/20HR/CEA32/4P

CEAG 5P & STAHL SP plugs and different cable lengths also available – please contact SA Equip for more details.

BENEFITS

- ATEX certified for Zones 1 & 2(gas)
- 400-440VAC(+/-10%)
- Compact, portable and lightweight
- Operational in temperatures as low as -40°C
- IP65 Rated
- 18kW Output at 440V
- Produces Airflow of 2560m³/hr
- Solid state electronic control system
- Marine grade materials
- Multiple lifting handles
- Optimised heating element design
- Can be used with or without ducting

SA FLEXIHEAT®

PIPE HEATING JACKETS

SAFH150 / SAFH050

**INSTALLED IN SECONDS,
ANYWHERE YOU NEED
THEM**

SA FLEXIHEAT EX Pipe Heating Jackets simply and quickly wrap around pipes wherever low temperatures cause the contents to wax and solidify and **can be installed by one worker within seconds**. With three different sizes and linkable sections, they work with valves, instruments and straight and curved pipework. Effective in **temperatures as low as -40°C**, they keep compressors and pumps running to enable you to get on with those important maintenance jobs.

CORE PRODUCT INFORMATION

SAFLEXHEAT EX 400mm Long Pipe Heating Jacket

HEATBOX

SAHB

PAINT & FLUID TEMPERATURES MAINTAINED

The SA FLEXIHEAT EX HeatBox stores containers of paint, PFP, grease and other substances at their optimum temperature right next to your application, even in a Zone 1 Hazardous area. This has been proven to deliver **extensive financial savings** as it reduces the time spent carrying products from heated stores to the work site. The HeatBox is air powered, exceptionally simple to use and virtually maintenance free.

BENEFITS

- ATEX Certified for Zones 1 & 2(gas)
- Saves you time, risk, and money on tasks
- Compressed air powered – no electricity required
- Portable and lightweight
- Easy product application
- Takes standard 20 Ltr containers
- Higher quality application
- Temperature indicator
- Safe and simple temperature regulation
- Fast and safe heating to over 40°C

LED TORCH

EX150

HANDY, POWERFUL, EXTREMELY TOUGH

Weighing just 145g, the SA LUMIN EX LED Torch packs the power of a much larger handlamp into a compact, robust unit. It throws out an impressive 135 lumens where you need it, and an Intelligent Light Sensor adjusts the beam, extending battery life to save you time and money. **Running up to 30 hours on one set of four standard AAA batteries**, it also features a glo cap so it's easy to find in the dark.

BENEFITS

- ATEX Certified for Zones 0, 1 and 2 (gas), 20, 21 and 22 (dust)
- Penetrating light beam
- Waterproof and dustproof
- Ergonomic design
- Optimum light output to size ratio
- Intelligent Light Sensor
- Up to 30 hours battery life
- Uses standard AAA batteries
- Glocap

LED HEADTORCH EX600

RUGGED CONSISTENCY FOR THE EXTREME

The EX600 LED Headtorch is designed to be tough, compact and comfortable. The light-weight and ergonomic design of our headtorch delivers high quality light output for maintenance and inspection jobs, rope access and confined space entry. With two light output settings and simple push button operation, users can **easily select the required lumen output** based on their applications. It operates at a **high level of brightness with a 200 lumen light output** combined with a long run-time.

BENEFITS

- ATEX & IECEx certified for Zones 0, 1 and 2 (Gas)
- Simple push button operation
- Tough, anti-static casing
- Adjustable anti-static head strap
- Battery compartment locking mechanism
- 50,000hrs LED life

LED TASKLIGHT

SATL100

CLEAR, EVEN LIGHT PRECISELY WHERE YOU NEED IT

With a bank of 30 high-power LEDs, the SA LUMIN EX LED Tasklight gives you clear, even light output so you can see and work efficiently. It's ideal for quick inspections, emergency response work, rope access work and tasks in remote or inaccessible areas. As it's rechargeable there are no trailing cables to trip over, and a **fast recharge time of 1-3 hours gives up to 6 hours use**. The versatile, ergonomic design means you can hang it, stand it up, lie it down or hold it exactly where you need it.

BENEFITS

- ▀ ATEX and IECEx Certified for Zones 0, 1 and 2 (gas), 20, 21 and 22 (dust)
- ▀ High Power LED Light Output
- ▀ Rechargeable – no trailing cables
- ▀ Up to 6 hours use per charge
- ▀ Waterproof and dustproof (IP66)

EVERYTHING YOU NEED TO PUT YOUR TASKLIGHT TO WORK

The SA LUMIN EX LED Tasklight is available with a comprehensive kit of accessories, and **ready to use in any eventuality**. Along with the Tasklight itself, the kit includes a holster, magnetic bracket, base unit, and a handy additional EX150 Torch together with a charger and charging leads.

BENEFITS

- Ideal for quick inspections and small tasks
- Leatherholster
 - Hands free operation
 - Suitable for rope access work
 - Durable, anti-static leather construction
 - Conductive strap fits across body
 - Extra slots for beltfastening
 - Allowson/off operation of Tasklight while in holster
- Magneticbracket
 - Enables Tasklight to be used as a worklight
 - Stainless steel magnet and mount, encased in anti-static rubber
 - Spring-loaded buckle-strap for easy attachment
 - Sticks to any magnetic metal surface at any angle
- Base unit
 - Anti-static rubber unit stabilises Tasklight when standing on end

SA LUMIN®

LED WORKLIGHT 100

SA100

EYE-FRIENDLY LIGHT, ANYWHERE YOU NEED IT

Zone 1 & 2 certified SA LUMIN EX LED Worklights are designed with you, the user, in mind. **Advanced LED technology is combined with exceptionally low cost of ownership to provide complete peace of mind.**

Exceptional cable gland and socket protection further improves the reliability of this product. The SA LUMIN LED Worklight 100 is our compact version and is available in linkable and standard formats. It consumes less than 29 watts of power (at 110V) yet pumps out 2850 lumens of light.

BENEFITS

- ATEX and IECEx Certified for Zones 1 and 2 (gas), 21 and 22 (dust)
- INMETRO Certified
- High Power LED technology
- Light output 2850 lumens (180°)
- Lightweight and compact
- Low cost of ownership
- Linkable versions available
- Advanced diffusersystem
- Enhanced cable gland & socket protection
- Tough and durable
- High lightoutput
- Exceptionally reliable
- Waterproof and dustproof
- T4 Temperature rating
- Supplied with Adjustable Hanging Straps and Protective Film

SA CYCLONE

AIR MOVER

SAF35

TAKE A BREATH OF FRESH AIR

The SA CYCLONE Air Mover is a high-power portable ventilation fan designed for safe and reliable extraction of dangerous vapors in hazardous environments. With the use of interchangeable duct adaptors one unit can be configured for 30cm and 40cm applications. The **compact design and versatile construction** provides increased mobility and performance in the most rigorous conditions. With maximum airflow of **5179 m³/hr**, our AirMover safeguards you when it matters most.

BENEFITS

- ATEX & IECEx Certified for Zones 1 and 2
- INMETRO Certified
- Configurable for use with 30cm & 40cm ducting
- High airflow
- Operates on 50 or 60Hz
- Ergonomic design
- Easy carry handles
- Integral cable storage
- Stackable
- Used as blower or exhauster
- Tough and durable
- Lightweight
- Anti-static polyethylene housing

ANTISTATIC DUCT SYSTEM SAFD

VENTILATES SAFELY, FOR INCREASED CONTROL

The SA CYCLONE anti-static duct system is highly flexible ducting designed to enable you to create a safe ventilation system for use in ATEX zones 1 and 2. Carefully selected materials and a robust design combine to deliver safety against electrostatic discharge and preventing the ignition of explosive gases. Constructed from anti-static reinforced polymer these ducts are durable, heavy-duty and flame retardant. The integral ducting bag enables fast and easy compacting for improved transport and storage of the product.

BENEFITS

- ▀ PVC anti-static fabric
- ▀ Flameretardant
- ▀ High quality construction
- ▀ Heavy duty attachment methods
- ▀ Fully flexible ducting
- ▀ Integrated steel helix reinforcement
- ▀ Easy storage and transportation
- ▀ Integral carry bag
- ▀ Various lengths and widths of ducting available
- ▀ Single and dual strap versions available
- ▀ Straight, Y-piece, and reducing couplers available

SA CYCLONE®

**VENTURI AIR
MOVER**
SAV

POWERFUL, SIMPLE AND TRULY PORTABLE

The market-leading air-driven ventilator, it has no moving parts, and instead uses high velocity compressed air to create a pulling action and a subsequent large volume displacement through a diffuser, connecting to ducting or hoses where required. The smallest unit **weighs just 2kg**. Our Venturi units are exceptionally reliable and require virtually no maintenance.

BENEFITS

- Powered by compressed air or saturated steam
- Tough and durable
- Anti-static polymer housing
- Highly reliable
- Minimal maintenance
- Cylindrical mixing chamber delivers higher induction ratios
- Fits standard API openings
- 3 sizes available – 13cm, 20cm, 30cm

"The MDU is absolutely brilliant. I like the simple way it works."

Manager of Major Contractor for North Sea

SA POWERNET

**MAINS
DISTRIBUTION
UNIT
PNDU**

**POWER WHERE IT'S
NEEDED – WITH NO HOT-
WORK PERMIT OR STANDBY
MAN**

The first link between your power supply and your temporary system, our MDU can connect to welding sockets to **greatly increase your power supply options**. A true plug-and-play system, our MDU connects to a 440V 63A supply, splitting the power to 32A or 16A sockets. It's also extremely portable, weighing in at 55kg, and with a 10m input cable it can be easily moved by personnel without the need for lifting equipment.

BENEFITS

- ATEX Certified for Zones 1 and 2(gas)
- Tough and durable
- Full MCB protection
- Easily transportable
- Weighs only 55kg including cable
- Waterproof and dustproof
- Easy maintenance
- Internal safety shield

POWER

SA POWERNET

**3.8KVA
TRANSFORMER
PNLT**

**PROVIDING 110V OR 230V POWER
SAFELY TO YOUR WORK AREA**

The SA POWERNET PNLT Transformer is an ATEX approved (Zones 1 and 2, 21 and 22) transportable transformer with a capacity of no less than 3.8KVA. Continuously rated, the PNLT will **deliver power safely wherever you need it**. Transportation is simple with a wraparound protective marine grade stainless steel frame, fork lift points and certified lifting points. Weighing in at under 100kgs and developed to fit two on a Euro pallet, this unit is highly compact.

BENEFITS

- ATEX & IECEx Certified for Zones 1 and 2 (gas), 21 and 22 (dust)
- 3.8KVA continuously rated
- Safe construction
- Dynamic load tested
- Suitable for use down to -40°C
- Tough and durable
- Compact and stable
- Waterproof and dustproof
- Integrated storage for 10m of supply cable
- Easy maintenance
- MCB and RCD Protection
- Certified Transportable

400VA TRANSFORMER

TRA

COMPACT, RUGGED, INCREDIBLY TOUGH

Our SA POWERNET EX 400VA Transformer comprises a composite box mounted via shock absorbers onto a marine-grade steel frame, with a special internal chassis securing the internal components. The result is **a phenomenally rugged unit**, but with no compromise on portability – at **only 17kg and 560mm wide**, it'll go anywhere you need it. A range of voltage and output options are available, as well as a Centre Tapped to Earth variant, it's supplied fully tested and ready for use.
